PROFESSIONAL SUMMARY

Software Developer with 1.6 years of experience in Python-based backend and ERP development, specializing in Odoo, REST APIs, database-driven applications, and third-party integrations. Experienced in developing business logic, API integrations, database solutions, debugging, and client-focused software customization across ERP and web applications

SKILLS

- **Programming Languages**: Python, C++
- **Frontend:** Html, Css, JavaScript, XML
- **ERP & Backend**: ERP Development, Odoo ORM, Backend Development, REST API Development
- **Databases:** MySQL, SQL, PostgresSql
- **Frameworks** : Odoo, Django, Flask, Django REST Framework
- **Integration & Tools**: REST APIs, Third-Party API Integration, Webhooks, Git, Docker, Linux/Ubuntu

EXPERIENCE:

Software Developer Trainee | Codetrade Pvt. Ltd. [January 2025- Present]

- Developed and customized ERP modules using Python and the Odoo framework, implementing business logic and application workflows.
- Worked with Odoo models, XML views, Odoo ORM, and PostgreSQL for database-driven application development.
- Developed and integrated REST APIs and backend functionality for business applications and third-party integrations.
- Customized existing features, fixed bugs, improved application performance, and collaborated with team members and clients to understand requirements and deliver solutions.

Data Science Intern, Celebal Technology

- Worked with Python, data analysis, data visualization, and machine learning; completed data cleaning, exploratory data analysis, model development, and a newspaper clustering project.

EDUCATIONAL QUALIFICATIONS

Arya Institute of Engineering and Technology, Jaipur, Rajasthan
Bachelor of Technology (B.Tech), Information Technology | 2021–2025 | CGPA: 9.4/10

PROJECTS

Saned – Hospital Management System (Client Project)

- Developed and maintained backend functionality for an Odoo-based Hospital Management System across multiple client requirements.
- Implemented bug fixes, feature enhancements, business-specific customizations, and APIs supporting mobile application data synchronization.
- Supported staging, pre-production, and production deployment cycles, including testing, validation, and live releases.

Salesforce Connector – Odoo Integration (Product Development)

- Developed API-based synchronization between Salesforce CRM and Odoo for Leads, Customers, Products, and other business records.
- Implemented authentication, data mapping, configurable synchronization workflows, connection testing, and webhook-based automation.

Cre8tive Showcase – Portfolio Creation Platform (Personal Project)

- Built a Django-based platform for creating and customizing professional portfolios using multiple templates, with user authentication, portfolio management, SQLite data handling, and responsive HTML/CSS/JavaScript interfaces.

Achievements

- Official Odoo Open Source Contributor (CLA Signed). Authorized to contribute to Odoo's open-source codebase and community projects.
